PROFESSIONAL SUMMARY

Self-motivated Software Engineer with 4+ years of professional experience specializing in Shopify and full-stack e-commerce development. Builds custom themes, Shopify apps, platform migrations, and commerce integrations for international brands. Proficient in ReactJS, Python, Node.js, and the Shopify ecosystem, with a strong track record of delivering scalable, high-performance solutions. Skilled in API integrations, microservices, cloud deployment, and cross-functional collaboration, backed by strong communication, project management, and technical leadership.

PROFESSIONAL EXPERIENCE

Shopify Full Stack Developer, Nine15

Jun 2025 – Present

San Diego, US

- Developed and customized Shopify themes and storefronts using Liquid, HTML, CSS, and JavaScript to deliver responsive, brand-aligned online stores.
- Built custom Shopify apps and integrations leveraging Shopify APIs, webhooks, and third-party services to extend platform functionality and automate business workflows.
- Executed platform migrations to Shopify, moving products, customers, orders, and content while preserving SEO rankings and minimizing downtime.
- Integrated commerce tooling (ERP, inventory, payments, shipping, and marketing platforms) to create connected, automated store operations.
- Implemented conversion-focused features and performance optimizations, improving page speed, Core Web Vitals, SEO, and the overall checkout experience.
- Collaborated with design and marketing teams to translate business requirements into scalable, maintainable e-commerce solutions for international brands.

Full Stack Shopify Developer, Northwest Web Developments

Apr 2025 – May 2025

London, UK

- Built and customized Shopify storefronts and themes using Liquid, JavaScript, and Shopify APIs for UK-based clients.
- Developed full-stack features and third-party integrations to extend store functionality and streamline operations.

Shopify Developer, Cartmade Ecommerce

Sep 2024 – Apr 2025

Kathmandu, Nepal · Full-time

- Designed and implemented integrations with third-party APIs (e.g., Dropbox) to enhance backend functionality and streamline business operations.
- Built custom features and functionalities leveraging Shopify's ecosystem, including APIs, webhooks, and app development frameworks.
- Optimized performance and SEO to improve user experience, store speed, and search engine visibility.
- Collaborated with cross-functional teams to align e-commerce strategies with design, marketing, and business goals.

Full Stack Developer, MME Solutions

Jan 2023 – Jan 2024

Chicago, US

- Collaborated with US-based clients to design and implement full-stack solutions, leveraging ReactJS for the front end and Python for the backend, ensuring robust performance and scalability.
- Developed and optimized responsive UI/UX features using ReactJS, enhancing user experience across multiple devices.
- Designed and deployed scalable microservices using Node.js and AWS Lambda, enabling efficient, cloud-based solutions.
- Improved database operations using MongoDB and MySQL, focusing on performance optimization and high scalability.
- Integrated third-party APIs and handled data migration, ensuring smooth and efficient workflows across multiple platforms.

Engineer, Dhara Networks

Jan 2021 – Jan 2023

- Led development of billing submission SaaS platforms for international clients using Angular and Node.js, ensuring high availability, reliability, and scalability.
- Architected and implemented RESTful APIs and microservices using TypeScript, promoting modularity and code reuse across the application.
- Leveraged containerized environments with Docker to ensure consistent deployment and improve development workflows across teams.
- Implemented React-Redux for state management in complex frontend applications, ensuring predictable state updates and optimized performance.
- Utilized AWS services (EC2, S3, Lambda) to design cloud-native solutions, enhancing application availability and cost efficiency.
- Conducted data migration from legacy systems to modern databases (SQL, MongoDB), ensuring seamless transition with minimal downtime.
- Optimized database performance through query tuning, indexing, and caching strategies, resulting in faster data retrieval and reduced latency.
- Led cross-functional discussions with stakeholders to deliver features aligned with business goals under Agile practices.

SKILLS

Shopify Themes: Liquid, Online Store 2.0, Sections & Blocks, Metafields & Metaobjects, Theme Customization, Shopify CLI

Shopify Apps & APIs: Custom & Private Apps, Admin API (REST & GraphQL), Storefront API, Webhooks, Theme App Extensions, Shopify Functions, Polaris
